

# Are you ready to fly those feels?

You're just a few steps away from letting everyone know how you feel about V-Day!

1. Simply print this puppy out and cut along the dotted lines.
2. Now, think reeeeeeeally hard about which side best describes your feelings. Ready? Ok! On to the next step.
3. Now, carefully position your Valentine's Day AmbiGram in the direction that expresses your corazón.
4. Next, find a surface to place it. The back of your laptop. Your office door. Straight up on your chest.
5. Now find something to make it stay. A push pin, tape, glue, old chewing gum. You get the drill.
6. Now, affix your AmbiGram and make sure it's gonna stay.
7. If you're more on the digital side, simply crop out the design, flip it proper like and throw it down as your screensaver or post it on social media to show your lover/ex what's up.

**Congrats!** Now everyone will know EXACTLY how you feel about February 14!
